Water Safety Education

& Drowning Prevention Strategies

Children with

AUTISM

and their parents!

Water SAFETY with Miss Dayna

Is your child SAFE in or near water?

What's your confidence Level?

Like many families, you probably check most of the boxes below:

- [x] Up-To-Date CPR Certification
- [x] Proper Flotation Devices
- [x] Active Watching (Not Supervising)
- [x] 2-Step Thumbs Up Verification
- [x] Cell Phones Always Down
- [x] Fences & Gates, Locks & Alarms
- [x] Enrolled In Swim Lessons

Unfortunately, checking these boxes will only achieve *Confidence Levels...*

1 2 3

It's a heart-breaking reality.

Drowning is the #1 cause of death for children under 5.

Nearly 70% of drownings of kids under 5 happen during non-swim times.

88% of drownings happen when an adult is present.

Children with autism are at a higher risk of water-related tragedies.

49% of children with autism are prone to elopement.

Children with autism are 160 times more likely to drown than their neurotypical peers.

Drowning accounts for over 70% of wandering-related deaths.

And as a parent, you deserve more than scary statistics and hollow advice.

Confidence Level 4

Water Emergency Plan

for Elopement & Wandering

The **Water Safety Emergency Plan** was created specifically for families raising children with autism who may be at risk for elopement or wandering. This simple, neighbor-ready plan helps you build a clear communication network with the people around you so you are not navigating a water emergency alone. It gives you an organized way to share important information about your child, identify nearby water risks, and ensure trusted neighbors know exactly what to do if they ever see your child near water or wandering without supervision. It is a proactive step that brings peace of mind and turns community into an added layer of support for your child's safety.

Confidence Level 5

"Where there is water, I will WAIT"

By using the **"Where there is water, I will WAIT"** strategy along with **The Waiting Whales Water Safety Kit**, you will teach your children life-saving water safety practices with clear words, simple routines, and easy-to-use tools. It is the most powerful way to teach your children never to enter the water alone.

Water SAFETY with Miss Dayna

Water Safety for Children with Autism

Water Safety With Miss Dayna is committed to making it as easy as possible to keep your child safe in and around water. Neurodivergent children are often drawn to water as it shimmers, reflects, and makes soothing sounds. But when they find themselves unexpectedly IN the water, it's a recipe for danger. You deserve active strategies that teach impulse control to keep kids from wandering to water and empower you to prevent drowning.
